To whom it may concern,

Shanghai Superconductor Technology Co., Ltd. (SST) is pleased to announce that Marphil International will be its sole and exclusive representative in European Union, starting from September 1<sup>st</sup> 2023. Marphil International has had 35 years of experiences sourcing high performance specialty metals worldwide, and supplying to research organizations in EU and US. It has a strong track record of sales, services and business. SST strongly believes that Marphil International will be a highly valuable partner and provides outstanding sales and services of REBCO products to its European customers.

For future requests for quotation and/or tendering processes, please include Marphil International using the following contact details:
